

ACLCA SA PRESENTATION

TOPIC: ASBESTOS IN SOIL – FROM THE SIMPLICITIES TO THE COMPLEXITIES

Presented by: Adam Cappur-Smith and Jess Miller, Greencap

Time: 12:15 pm for 12:30pm start – until 1:30pm approx.
Date: Thursday 25 November 2021
Where: Pilgrim Hall (Pilgrim Uniting Church) – 12 Flinders Street Adelaide

Synopsis:

Assessing and managing asbestos in soil raises unique challenges. This presentation will run through the following:

- A general overview of asbestos in soil – potential sources and implications
- Common examples and considerations for developers and consultants
- A snapshot of what's new in the new WA Department of Health Guidelines
- Environmental and occupational exposure risks – how do these interact
- Case studies

Presenters' Bios:

Jess Miller

Jess is an Environmental Scientist with 15 years of experience including a strong focus on asbestos-in-soil assessment and remediation projects. Jess also has experience from the USA working in environmental hazard disclosure and geological and seismographic investigations.

Jess has a comprehensive approach to running complex projects and has worked on asbestos-impacted sites across various industries including development, manufacturing/industrial facilities, defence sites, airports and landfills amongst others. Jess also is a Licensed Asbestos Assessor.

Adam Cappur-Smith

Adam has over 10 years' experience in the industry and is currently managing a suite of large, complex asbestos-in-soil major projects. His experience spans across the property and development, aviation, government, education, transport, infrastructure, and industrial sectors.

Adam also has broader experience in business start-ups, business management and marketing. As a result, Adam brings together his technical and commercial knowledge to bring a pragmatic approach to environmental projects.

REGISTRATION

Registration at: <https://aclca.org.au/sa-events>
